Software Engineer (Software Education)

Kuala Lumpur | anisruszannarosli01@gmail.com | 017-4757964 | <https://www.linkedin.com/in/anis-ruszanna>

WORK EXPERIENCE

AEM Energy Solution

Front-End Intern

Kuala Lumpur

Feb 2024 – August 2024

PROJECTS

DROID MOBILE VIEW

March 2024 - Jun 2024

Front-End Developer- STDS Viewer Module

- Developed the STDS Viewer Module utilizing the Ionic framework and Angular for robust and responsive mobile applications.
- Improved the workflow of the STDS Viewer in Mobile View, making the user interface more intuitive.
- Integrated Well Data APIs seamlessly using Swagger for efficient communication between the front end and back end.
- Managed version control and collaborative development through Azure DevOps, ensuring smooth project progression and code integrity.
- Enhanced the performance and usability of the mobile application, resulting in a more efficient and user-friendly experience for stakeholders.

OUTSYNC INNOVATORS

July 2024 – August 2024

Participant

- Contributed to front-end development projects using OutSystems, focusing on creating user-friendly interfaces and enhancing user experience.
- Successfully completed Service Studio 11 training, gaining proficiency in building and managing applications within the OutSystems platform.
- Integrated Droid Well Header Information external databases to streamline data management and improve application functionality.

EFATWAINSIGHT

July 2023 – Jan 2024

Final Year Project

- Developed a comprehensive fatwa management system using Laravel, enhancing the efficiency and accessibility of fatwa-related information.
- Improved fatwa documentation and management processes for Jabatan Mufti Negeri Perak, ensuring accurate and organized records.

PARTICIPATION

- **AEM HACKATHON 2024:** Committee Member & Participant (Developer on connecting external database)
- **SOFTWARE ENGINEERING ASSOCIATION (PKP):** Academic Exco
